Once you have chosen to add an ArcGIS Portal application container, you will be presented with the following dialog.

Add a New PORTAL Monitoring Container

Select Connection

OR

Use PORTAL Credentials

Username

k dunaway_ves

Password

.....

Type

PORTAL

URL

Example

https://portalURL/arcgis

Save As Connection

Previous

Next

Next

An ArcGIS Portal container can be added in 2 different ways.

1. You can use the left side dropdown to select a connection. See [Connections](#) for more information.
2. You can provide an ArcGIS Portal username and password, along with the URL.

After you have either provided a connection, or ArcGIS Portal credentials, clicking the corresponding [**Next**] button will continue to the next window.

The GeoSystems Monitor will take the information provided and generate a list of groups the ArcGIS Online user has access to.

Add a New Monitoring Container

Select group from:
VESTRA Resources, Inc

GeoSystems Monitor Testing

Citrus
GeoSystems Monitor Testing
Medford MLI Web Map Group
Mt. View Conflict of Interest Test (…
TrinColvestment
VFD_Co_71

Previous

or

Search Public

Search Organization

Next

Select a group or search Public/Organization and click the **[Next]** button.

Add a New Monitoring Container

Name	Type
GeoSystems Monitor	Application
Iron Complex Progression_Update	Application

Previous

Create Container

This will bring up the next panel where all of the applications will be shown.

Once completed, click the **[Create Container]** button to create your monitoring container.

At this point a new container will appear on the dashboard, with a spinning icon indicating it's in the process of setting up the individual monitoring points.

When it's completed setting up the individual monitoring points, the spinning icon turns into a check mark, and the monitoring container can be opened (by clicking on Status Points) to reveal the points inside (see image below).

STATUS POINTS FOR: GEOSYSTEMS MONITOR TESTING APPLICATIONS							X	
     							All	4
							Up	4
							Down	0
							Slow	0
							Warning	0
							Inactive	0
ID	Name	Description	Active	Status	Info	Last Check Time		
2	Iron Complex Progression_Update	Application	Yes	Up	N/A	8/13/2018 12:44:31 PM		
3	MCVFD_Company_71	Application	Yes	Up	N/A	8/13/2018 12:44:30 PM		
4	TCI Iron Complex Firelines	Application	Yes	Up	N/A	8/13/2018 12:44:30 PM		
5	TCI Iron Complex Progression	Application	Yes	Up	N/A	8/13/2018 12:44:30 PM		

This completes the process of creating a container of monitoring points for an app, which can now be moved (drag & drop) to a preferred location or moved to another tab.
