

Adding Monitoring Containers & Points - Overview

To add a new monitor container, located the Add Container button on the left sidebar and click it to start the process.

You will be presented with the following dialog box.

GeoSystems Monitor allows for different types of containers to be created.

[1. AGS - ArcGIS Server container.](#)

[2. AGOL - ArcGIS Online container](#)

[3. PORTAL - ArcGIS Portal container](#)

[4. OTHER - License Manager Module \(New\) and an Empty container](#)
