

# Adding Portal Web Map Monitoring Containers

Once you have chosen to add an ArcGIS Portal webmap container, you will be presented with the following dialog.

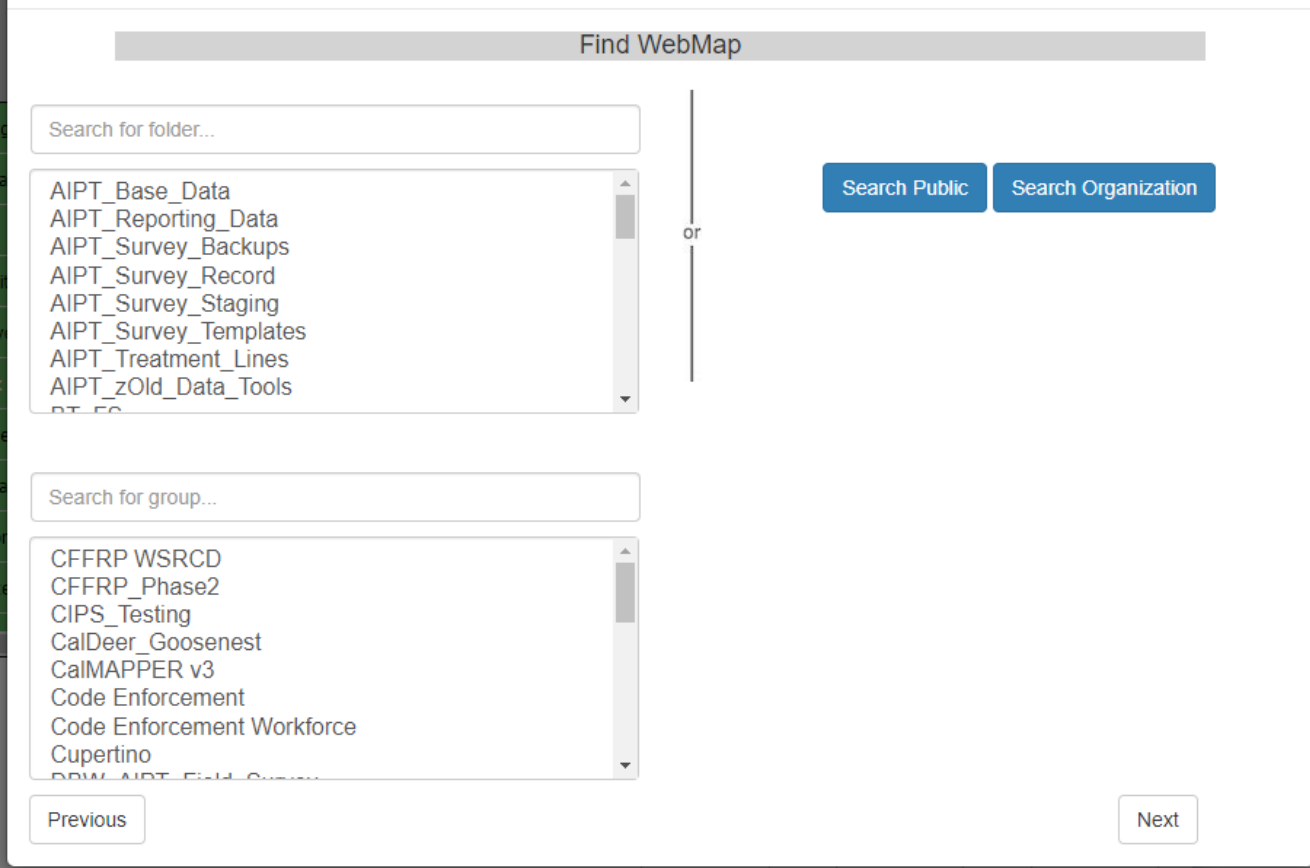

An ArcGIS Portal container can be added in 2 different ways.

1. You can use the left side dropdown to select a connection. See [Connections](#) for more information.

2. You can provide an ArcGIS Portal username and password, along with the URL.

After you have either provided a connection, or ArcGIS Portal credentials, clicking the corresponding [**Next**] button will continue to the next window.

The GeoSystems Monitor will take the information provided and generate a list of folders and /or groups the ArcGIS Online user has access to.

The image shows a web application window titled "Find WebMap". It features two search input fields on the left: "Search for folder..." and "Search for group...". Below the first field is a scrollable list of folders including "AIPT\_Base\_Data", "AIPT\_Reporting\_Data", "AIPT\_Survey\_Backups", "AIPT\_Survey\_Record", "AIPT\_Survey\_Staging", "AIPT\_Survey\_Templates", "AIPT\_Treatment\_Lines", "AIPT\_zOld\_Data\_Tools", and "PT\_EC". Below the second field is a scrollable list of groups including "CFFRP WSRCD", "CFFRP\_Phase2", "CIPS\_Testing", "CalDeer\_Goosenest", "CalMAPPER v3", "Code Enforcement", "Code Enforcement Workforce", "Cupertino", and "SDWA APT Field Support". To the right of these lists is a vertical line with the word "or" in the center. Further right are two blue buttons: "Search Public" and "Search Organization". At the bottom left is a "Previous" button, and at the bottom right is a "Next" button.

Find WebMap

Search for folder...

AIPT\_Base\_Data  
AIPT\_Reporting\_Data  
AIPT\_Survey\_Backups  
AIPT\_Survey\_Record  
AIPT\_Survey\_Staging  
AIPT\_Survey\_Templates  
AIPT\_Treatment\_Lines  
AIPT\_zOld\_Data\_Tools  
PT\_EC

or

Search Public Search Organization

Search for group...

CFFRP WSRCD  
CFFRP\_Phase2  
CIPS\_Testing  
CalDeer\_Goosenest  
CalMAPPER v3  
Code Enforcement  
Code Enforcement Workforce  
Cupertino  
SDWA APT Field Support

Previous Next

Select a folder or group or search Public/Organization and click the [**Next**] button.

## Add a New AGOL Monitoring Container

### Select a Web Map

	BLM_AGOL_1	Select
	BLM_AGOL_2	Select
	BLM_AGOL_3	Select
	BLM_AGOL_4	Select
	CIPS_AGS_BASE_TEST	Select
	CIPS_AGS_HeatMap_ImageService	Select
	CIPS_AGS_LS_FACTOR_TEST	Select

[Previous](#)

You will then see another panel which reveals all the web maps in the selected location, similar to the one shown to the right.

Click on the [**Select**] button next to the web map you'd like to create a container for.

## Add a New Monitoring Container

Name	Type
Soils_AGOL_1	Web Map - Master
Basemap - Topographic	Map Service
Wettest Drainage Class (soil hydrology map operational layer)	Map Service
Report content on Climate Change	Map Service
Length of Growing Period	Tiled Map Service
Soils of Canada - Orders (tiles)	Tiled Map Service
Failed Season	Tiled Map Service

[Previous](#)[Create Container](#)

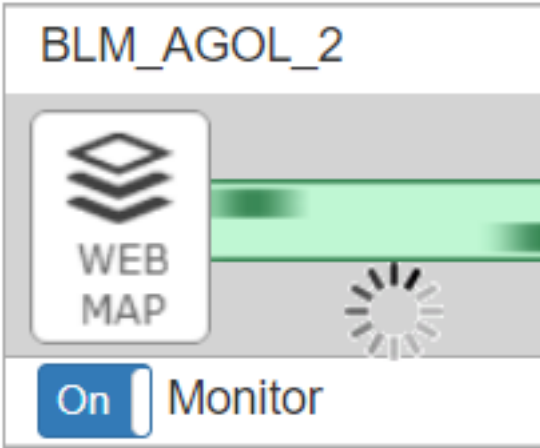

This will bring up the next panel where all of the layers for the web map selected will be shown. Although this step usually completes quickly, it's best to wait for a few seconds to make sure the

process is completed.

Once completed, click the **[Create Container]** button to create your monitoring container.

At this point a new container will appear on the dashboard, with a spinning icon indicating it's in the process of setting up the individual monitoring points.

When it's completed setting up the individual monitoring points, the spinning icon turns into a check mark, and the monitoring container can be opened (by clicking on **[Status Points]**) to reveal the points inside (see image below).

STATUS POINTS FOR: SOILS\_AGOL\_1 ✕

All 7 Slow 0 Down 0 Inactive 0

Name	Type	Active	Status	Info	Last Check Time
Soils_AGOL_1	Web Map	Yes	Up	LyrCnt:5	6/1/2017 12:01:26 PM
Basemap - Topographic	Map Service	Yes	Up	N/A	6/1/2017 11:51:22 AM
Failed Season	Tiled Map Service	Yes	Up	N/A	6/1/2017 11:51:22 AM
Length of Growing Period	Tiled Map Service	Yes	Up	N/A	6/1/2017 11:51:22 AM
Report content on Climate Change	Map Service	Yes	Up	N/A	6/1/2017 12:03:28 PM
Soils of Canada - Orders (tiles)	Tiled Map Service	Yes	Up	N/A	6/1/2017 11:51:21 AM

This completes the process of creating a container of monitoring points for a web map, which can now be moved (drag & drop) to a preferred location or moved to another tab.
